

# Lappland, Kilpisjärvi

05/03-11/03

Some of the Bioceb members of the Tallin team were lucky enough to take part in the Lappland trip organized by the ESN organization. This trip was overall organized by the ESN, as well as the activities that we participated in. This amazing week shared with friends and in a breathtaking environment took all of us by surprise and left us with many memories that now we share.

# Here we go!

We all know Lappland is not so easily reachable, and to make it there we indeed had quite a trip!

# Santa's Village

On the way to our final destination, we stopped by in Santa's Village and crossed the Arctic Circle! Also got loooovely souvenirs such as our super nice sledges ☺

# Tromsø

We were driven thorough the Fjords until finally made it to Tromsø, Norway, about to drop out of the map!

# Hiking

As Bioceb students, we also do really love nature!  
Thus, it was imposible to skip a nice hiking day in  
the warm temperatures of nearly -30°!

Managed to see the northern lights!!!

The accommodations we were given were splendid cabins with private saunas where we could have fun and relax!

And we stayed  
happy and  
fashionable  
through the snow  
and the freezing  
temperatures!!!
