

BIOCEB
COHORT 3

Quality stamp

In this cohort we have been lucky to gather a diverse group of people, not only for the several nationalities, but also regarding the different characters, hobbies and backgrounds. It is precisely this, the wide variety of personalities and cultures within each of us, what makes our group so colourful and full of love! But now, we know that an image says more than a thousand words, so let the images and smiles speak by themselves!

First semester in Reims

- This cohort has so far had the chance to discover a bit of the adventure starting off in Reims! By night or day, the city has offered entertainments of all sorts

Autumn in Reims

The Champagne Park dyed with Autumn's colors

The prettiest park of all Reims to just 5 minutes walking from the residence!

Even if this cohort is very hardworking, we all need those times to disconnect. And what better to disconnect than some exercise every now and then??? A little trip to the paintball centre close by was indeed necessary to filtrate the madness of some of us regarding the load of work! Of course, once we travel around we also crave some proper gastronomic tourism!

International Dinners!!!

As mentioned, gastronomy is also one of our common interests! What can be better, and make us both feel close home and get closer among us, than our famous international dinners?!!! Delicious above all, this master is not only creating geniuses, but also great chefs! Even if birthdays may be an excuse for them, any weekend is a good chance to gather all together and taste some exotic meals!

A Little party never killed anyone ;)

Or a bit more...

We are also good students!!!!

URCA also organizes many different activities of all sorts

Overall, it's looking pretty nice, right?

Cheers from Bioceb Familia <3
