GREEN CHEMISTRY LABORATORY

- USING OF A CONTINUOUS FLOW PROCESS FOR HYDROGENATION REACTION

TALTECH RACE

Tartu trip and race

- Some of the biocebers went this past weekend to Tartu, second Estonia's biggest city located in the south east of the country. Saturday was tourist day! They visited the upside down house and Tartu's hall (where Estonia proclaimed its indenpendecy). Next day some brave biocebers joined the cross country trial in the Woods! It was a whole weekend experience!

Tartu's race
