

Trip to Lapland

"Our trip to Lapland was organized by ESN from TalTech University. We spent 3 days in Rovaniemi, Finland, with other master and bachelor students from both main universities of Tallinn: TalTech and Tallin's University. The first day we visited Santa's village, where we had a picnic and dedicated the whole afternoon to sledding. At night we did ginger cookie decoration. Next day we visited a husky house (Erä-Susi Huskies), where we did a husky ride. Afterwards we ate in a small tent, around a fire, while we were waiting to do a reindeer ride (Rukatunturi). At the end of the day we visited another hill to continue with the sledding! We did saunas and ice jumping and after dinner we went to a 20 mins far hill to try to see the northern lights, and we actually saw them!!! Finally, the last day we went hiking in two different parks: Korouoma (where we had a nice picnic with delicious sausages and marshmallows!) and Riisitunturi kansallispuisto (where we saw the beautiful sunset). At night we had a wonderful end of trip with the sky full of breathless northern lights (again!)"

Bioceb Students from Intake 2 Tracks 1, 2 and 3.
